100% web-based

No hardware or software is required to use the system.

Data importing and exporting

Global Connect is designed to interface with all major Dealership Management Systems.

Seamless integration

Once your customer's purchase date or service appointment is entered into your DMS, Global Connect takes over, automatically making maintenance or service appointment reminder calls.

Secure file transfer and storage

The information security and confidentiality standards provided by Global Connect have earned the company the American Institute of Certified Public Accountants' SysTrust seal.

Custom messaging

Contact customers who haven't visited your Service Department in the past 6 months, those affected by a recall, or any other targeted segment of your list. Global Connect makes it easy to send personalized messages to your entire database, or to specific customers.

Direct Connect to your service center

With the push of a button, your customers can instantly make a service appointment or respond to your call.

A variety of contact methods

With Global Connect, you can send emails and text messages just as easily as you can make telephone calls.

Real-time, detailed, customized reports

Track the progress and effectiveness of your calls with real-time, customized reports.

Automated, comprehensive service

Once you decide to use the Global Connect system, we take the wheel. Benefit from the system without the time and effort of day-to-day administration.

GLOBAL CAMPAIGNS CREATE TRAFFIC.

Our clients agree.

Since we implemented Global Connect's voice broadcasting system, we have saved thousands a month in advertising, and have increased our service department profits by 15%. This system has helped all departments of our company from increasing website traffic to the Service and Sales Departments. Global Connect has helped us increase revenue and build a loyal client base.

AUTO DEALER, NEW JERSEY

I have been in the automotive business for the past 30 years and I have seen many systems that people say can drive business to dealerships. Nothing can compare to what I have experienced from Global Connect's Voice Broadcasting System. This is a no risk system which is incredibly easy to implement, no contracts, friendly people, it is cost efficient, and it produces the instant results dealerships are looking for. I would recommend Global Connect to dealers of any size.
